Institution Profile:

K.L.N College of Engineering is the first self financing Co-educational Engineering Institution in Madurai incepted in 1994 by munificence of Philanthropist & well wishers in Sourashtra community which is a Linguistic minority in Tamilnadu. Our college is sponsored by a committee of eminent Industrialist & Academicians lead by enthusiastic, and Industrialist Amaran Shri. K.L.N. Krishnan. Our college has been approved by All India Council for Technical Education, New Delhi, and it is affiliated to Anna University, Chennai. The college is located in the south eastern outskirts of Madurai and is 11 kms away from Madurai City. The college runs Seven Undergraduate engineering programs and Seven Postgraduate programs.

The College has excellent infrastructure with College Automation and 40 Mbps Internet bandwidth.

Department Profile:

The department of Electronics & Instrumentation Engineering was established in the academic year 2001-2002, with an intake of 60 students and faculty strength of 12 with a Professor & Head. The department has well qualified & dedicated faculty members with different field of specialization. The laboratory is well equipped with all latest instruments to cater to the need of the syllabus and it is altogether worth about 60 lakhs. It is a pride to our department to mention that every year our students are bagging at least 7 university ranks. The department has signed MoU with

Yokogawa India limited, i max Industrial Automation Technology & National instruments which organizes in house training program such as DCS, SCADA, PLC etc., so as to provide industrial exposure. Our students are placed in reputed companies like Honeywell Technologies, Infosys, Wipro, CTS, TCS, etc... in good number consistently.

Scope of the Program:

The objective of this course is to introduce electric circuits and its analysis to the participants and to impart knowledge on solving simple circuits, resonant circuits, single and three phase circuits. The programme also focuses upon grooming the young academicians into effective teaching and exploring the concepts using Matlab.

Course Contents:

- ❖ Concepts of AC & DC circuits.
- ❖ Network theorems for circuits with dependent & independent sources.
- ❖ Transient response for DC & AC circuits.
- ❖ Resonance & Coupled Circuits
- ❖ Concepts of two port networks
- ❖ Three phase circuit analysis
- ❖ Hands on using Matlab
- ❖ Solution to GATE questions

Resource Persons:

- ❖ Experienced faculty members from reputed institutions.
