

### Academic 2014-2015

S.No	Name of the Faculty/author	National/ International	Name of the Conference	Paper title	Date of conference Month/year	Name of College /University
1	Dr.S.Murugan	National Seminar	Recent Trends in Novel Materials for Technical Applications	Study of EBG Structures for Antenna application	18-19th September 2014	Department of Physics , KLNCE
2	Dr.S.Murugan	International	Science, Engineering & Management research	Study of Broadband Circularly Polarised Microstrip Antennas	27-29 November , 2014	Veltech Multitech Engineering College, Avadi, Chennai
3	Prof.S.R.Naresh	International	International conference on innovations in information, Embedded and Communication Systems ( ICIIEC'15)	Achieving Source location privacy using Tree based routing algorithm in sensor networks	20th March 2015	Karpagam College of Engineering Coimbatore
4	Prof.S.R.Naresh	International	International conference on innovations in information, Embedded and Communication Systems ( ICIIEC'15)	Protecting Source location privacy against wormhole attack using DAWN in Wireless sensor network	20th March 2015	Karpagam College of Engineering Coimbatore
5	Prof. P.Karpagavalli	International	ICVGIP 2014	Crowd density estimation and counting the number of people with abnormal event classification in a video	December 2014	IISC Bangalore
6	Prof.S.Subha	International	International conference of intelligent system and control - 2015	Image Denoising by using iterative gradient histogram preservative(GHP) algorithm	January 2015	Karpagam College of Engineering, Coimbatore
7	Prof. R. Mohan Kumar	International	International conference of intelligent system and control - 2015	Efficient Secure routing algorithm for wireless sensor networks using Light Weighted Trust Management Protocol	January 2015	Karpagam College of Engineering Coimbatore
8	Prof. P.S.Kumaresh	International	International conference of intelligent system and	Cooperative relaying using co opmax in mobile wi-max networks	January 2015	Karpagam College of Engineering Coimbatore

			control - 2015			
9	Prof. Jeyanthi	International	International conference of intelligent system and control - 2015	Performance Analysis of relay selection schemes with outdated CSI	January 2015	Karpagam College of Engineering Coimbatore
10	Prof. Jeyanthi	International	International conference of intelligent system and control - 2015	Amplify and forward relay network optimization with imperfect CSI	January 2015	Karpagam College of Engineering Coimbatore
11	Dr. Janankiraman	International	International conference Computing technology 2015	Network lifetime argumentation by EASR method in wireless sensor network	March 2015	Noordhu Islam University Nagarkovil.
12	Prof.S.C.Sivaprakash	International	International conference on innovations in information, Embedded and Communication Systems ( ICIIEC'15)	Design of compact coupled line wideband power divider with open stub	20th March, 2015	Karpagam College of Engineering Coimbatore.
13	Prof. K.R.Shanthy	International	International conference on innovations in information, Embedded and Communication Systems ( ICIIEC'15)	Resource Allocation for OFDMA based Cognitive radio system using joint overlay and underlay spectrum access mechanism	20th March, 2015	Karpagam College of Engineering Coimbatore
14	Prof. R.Pavithra	International	International conference on VLSI computation networking , Drives and system design 2015	Efficient Radix 23 FFT architecture	26th March 2015	Sethu Institute of Technology
15	Prof. R. V.Saranya	International	International conference on VLSI computation networking , Drives and system design 2015	Removing Rain Streaks from an image using Sparse Coding	26th March 2015	Sethu Institute of Technology
