

## WHO CAN PARTICIPATE

The FDP is open to the faculty of Academic Institutions, Research Scholars and PG Students of Engineering.

## REGISTRATION FEE

Registration fees for all types of participants is **Rs.500** only.

The fee includes the course material, tea, snacks and lunch. Participants, who would like to commute daily from Madurai, can avail the bus transport of K.L.N.C.E. The fee should be sent by **Demand Draft** drawn in favor of “**The Principal, K.L.N. College of Engineering**” payable at Madurai. The fee does not cover accommodation and No TA/DA will be provided to the participants. However on request and depending on the availability, accommodation could be provided in the student's hostel at moderate charges.

## VENUE

Program will be held at K.L.N. College of Engineering on 13<sup>th</sup> and 14<sup>th</sup> September 2013, between 9.00 a.m and 3.15 p.m.

## HOW TO APPLY

Photocopy of the application duly signed and recommended by the Head of Institution / Department may be sent to the coordinators along with the demand draft on or before **6.09.2013**.

## ABOUT K.L.N.C.E

K.L.N. College of Engineering is the first self-financing Co-educational Engineering College in Madurai, started in 1994. This college is sponsored by the committee of eminent industrialists and academicians led by enthusiastic, and educationalist (Late) Thiru K.L.N. Krishnan. This college has the approval of All India Council for Technical Education, New Delhi and is affiliated to Anna University, Chennai.

## ABOUT DEPARTMENT

Started offering B.E. in Electrical and Electronics Engineering in the year 1994 with an intake of 40 and with the latest intake of 120 in 2011. Started offering M.E. in Power Systems Engineering in the year 2005 with an intake of 20 and increased intake to 24 in 2012. Accredited for three times (2004, 2008 and 2012) by National Board Accreditation, New Delhi. The department has well equipped laboratories such as Electrical Machines, Power System Simulation, Control Measurements and Instruments, Power Electronics and Microprocessor and Controllers. The R&D cell of the department are doing consultancy work on "Industrial Harmonics Study".

## OBJECTIVE OF THE FDP

The FDP focuses on Distributed energy technologies, which are playing an increasingly important role in the nation's energy portfolio. They can be used to meet the base load power, peaking power, backup power, remote power, power quality, as well as cooling and heating needs. Distributed energy also has the potential to mitigate congestion in transmission lines, reduce the impact of electricity price fluctuations, strengthen energy security, and provide greater stability to the electricity grid. The Resource Persons are experts in the field of Power System Operation, Stability and Control. Combining all lectures from the experts, the power system stability and operations are well studied and will promote anyone in this domain to a higher level of excellence.
