About the Department

The department of M.C.A. was started in February 1998. We are proud to have experienced and erudite faculty members. Our department is well equipped with latest computer systems and an Internet connection via Micro Wave Link with a capacity of 30 Mbps. MCA department accredited in the year 2007 and Reaccredited in the year 2012. Some of our faculty members contribute vital role in academic research. Additional training like IBM-DB2, WSAD, INFOSYS campus connect and effective placement training are given to M.C.A Students.

About the Workshop

Research activities comprises of defining the problem, formulating hypothesis, collecting and evaluating data to arrive at a conclusion. For researchers, defining problems, identifying methods for research and getting the results published in reputed journals are the challenging tasks. Any researcher needs to bring out the quality of research work by publishing his/her papers in peer reviewed journals. Most of the peer reviewed journals request the researchers to submit their papers in LaTeX format. Elsevier, ACM, AMS, IEEE, Springer, Kluwer, and other major publishers provide style files for writing scientific papers in LaTeX.

LaTeX is a free, open source typesetting tool that is widely used by scientists and engineering across the globe to create structured technical document with high quality of typesetting. LaTeX is an extremely powerful typesetting language for creating structured documents. It is well suited for documents containing mathematics and also for any other document writing. LaTeX provides a facility for portable document format (pdf) and post script (ps) type of output.

The objective of the LaTeX workshop is to give knowledge about how to write Research Papers, Journal Papers and Ph.D Thesis in LaTeX and Creating Presentation Slides using LaTeX. Demonstration on "How to use LaTeX" is also intended to provide the insight to newbies. This workshop also emphasize on the art of writing good technical papers for Journals & Thesis.
