## ABOUT THE INSTITUTE

K.L.N. College of Engineering is the first self-financing co-educational engineering college in Madurai, started in the year 1994 by munificence of philanthropist and well wishers in sourashtra community, which is a linguistic minority in Tamilnadu. This college is sponsored by a committee of eminent industrialist and Academicians led by enthusiastic, educationalist and industrialist (Amarar) Thiru.K.L.N. Krishnan.

This college has been approved by All India Council for Technical Education, New Delhi and is affiliated to Anna University of Technology, Madurai. The institution offers seven under graduate courses and five post graduate courses.

## ABOUT THE DEPARTMENT

The Automobile Engineering Department was started in the year 1999. The department is well equipped with qualified and experienced faculty members with research background. The department contains well established laboratories to impart good practical training to the students. The department is also running SAEINDIA collegiate club through which various events are organized for SAE student members.

## COURSE OBJECTIVE

Supply Chain Management is a system approach to manage the entire flow of information, materials, and services from raw material suppliers through factories and warehouses to the end customer. Effective supply chain management is the key to productivity and competitiveness of manufacturing and service enterprises. The advances in Information Technologies have led to noteworthy changes in the design and operation of Supply Chain Networks, with integration and automation as the key factors. An understanding of Supply Chain Management is extremely important for today's industrial professionals, academics, research scholars and graduate students.

The workshop gives an overview about the state of the art and current problems being tackled in Supply Chain Management. The major focus of the workshop is to know the various concepts in supply chain networks, the role of mathematical models and simulation in supply chain planning and decision making and to understand the various issues in supply chain automation.

### Topics to be covered:

- ✚ Basics of Supply Chain Management
- ✚ Understanding Supply chain Relationship
- ✚ Tools and Techniques for Supply Chain Management
- ✚ Modeling and Analysis of Supply Chains
- ✚ Supply Chain Optimization & Simulation
