About the College

K.L.N. College of Engineering is the first self-financing Co-educational Engineering College in Madurai, started in 1994 by Munificence of Philanthropists and well wishers in Sourashtra Community which is a linguistic minority in Tamilnadu. This college is sponsored by the committee of eminent industrialists and academicians led by enthusiastic, educationalist and industrialist Amarar Thiru.K.L.N.Krishnan. This college has the approval of All India Council for Technical Education, New Delhi and is affiliated to Anna University, Chennai. This college is an ISO 9001:2000 certified Institution. The college is located in a tranquil environment about 11 km from Madurai city. Our mission is to promote the institution to high standards in teaching and research.

Courses Offered

Under Graduate Courses
B.E. Mechanical Engineering*
B.E. Electrical and Electronics Engineering*
B.E. Electronics and Communication Engineering*
B.E. Computer Science and Engineering*
B.E. Automobile Engineering
B.E. Electronics and Instrumentation Engineering
B. Tech. Information Technology.*

Post Graduate Courses
M.C.A (Master of Computer Applications)*
M.B.A (Master of Business Administration)
M.E. Manufacturing Engineering
M.E. Communication Systems
M.E. Power Systems

* Accredited by NBA, AICTE, New Delhi

About the Department

The department of M.C.A. was started in February 1998. We are proud to have experienced and erudite faculty members. Our department is well equipped with latest computer systems and an Internet connection via Micro Wave Link with a capacity of 8 Mbps. MCA department was accredited in the year 2007. Some of our faculty members contribute vital role in academic research. Additional training like IBM-DB2, WSAD, INFOSYS campus connect and effective placement training are given to M.C.A Students through our Department

Objectives

The core objective of this program is to provide the algorithms and applications to the faculty working in the area of Image Processing. So that they can perform well in their profession and Research. The course aims at imparting knowledge in various phases of the image processing especially in extracting Image and Video from distributed environment and Mammogram Processing analysis. Apart from the theoretical sessions, hands on practical training will be provided for the participants in recent techniques.

Major topics

- Introduction to Image Processing
- Supervised and Unsupervised Image Classifications
- Image Future Extraction
- Mammograms Processing & Analysis
- Segmentation in Image Processing
- Practical Demos

Resource Persons

Experts in Image Processing will deliver the information related to the state of art technologies.
