from the desks of editors

After a grueling academic session and a relaxing brief vacation, we are again charged with new enthusiasm to push our students to further heights in their quest for knowledge.

KLNCE BLOSSOMS has been an indicator of various academic performance measures of our batches. This indicates our commitment to multi-dimensional aspects of quality.

You may wonder why this newsletter lists such large number of small achievements. This is because, we believe that small drops only make a large ocean. As a continual improvement measure, we keep running for highly qualified persons (with good academic and industrial experience) committed to our vision and inspire our students and young staff.
