Credit transfer is applicable for maximum of two elective courses for the entire course of study. These online courses shall be chosen from the SWAYAM platform, provided the offering organisation conducts regular examination and provides marks. After successful completion of the online course conducted by organization (SWAYAM), the student has to register the online course in the Institution along with other courses. The course shall be evaluated through continuous assessment (40 Marks) conducted by NPTEL mentor and End Semester Examination conducted by CoE (60 Marks). Grades earned through end semester exam and continuous assessment shall be considered for credit transfer of elective course.</p>	<p>12.7 Assessment for Online Courses Students may be permitted to credit online courses (which are provided with certificate), subject to a maximum of nine credits. The online course(s) of 3 or 4 credits (12 weeks or 8weeks+4weeks or 8weeks+8weeks) can be considered instead of one elective course. Credit transfer is applicable for maximum of three elective courses for the entire course of study. The students who opt for B.E/B.Tech. These online courses shall be chosen from the SWAYAM platform, provided the offering organisation conducts regular examination and provides marks.</p> <p>12.7.a. The number of credits may be assigned as per the table 12.7.1 and the Mapping of the marks with the grades is explained in Table 12.7.2. The mapping of marks with grades is applicable, only if the student passes the course as per the guidelines of NPTEL.</p>

Table: 12.7.1. Number of Credits

No. of Weeks	Total No. of credits earned
4	1
8	2
12	3
16	4

Table 12.7.2 : Mapping of Marks scored in NPTEL course and grades earned

Letter Grade	Marks	Grade Points
O	90-100	10
A+	80-89	9
A	70-79	8
B+	60-69	7
B	50-59	6
C	40-49	5

12.7.b. After successful completion of the online course conducted by organization (SWAYAM), the student has to register the online course in the Institution along with other courses. The course shall be evaluated through continuous assessment (40 Marks) conducted by NPTEL mentor and End Semester Examination conducted by CoE (60 Marks).

12.7.c. Grade earned by a student through end semester exam and continuous assessment (as per 12.7.b.) shall be compared with the grade earned by him/her in NPTEL examination (as per 12.7.a) and the higher grade shall be considered for CGPA calculation and the same shall be printed in grade sheet.

12.7.d. If the candidate is absent or fails in the examination conducted by CoE, the grade earned in NPTEL examination (as per 12.7.a) shall be assigned to the candidate.

12.7.e. For Skillrack/MATLAB Self Paced course one internal test will be conducted by the mentor and the marks entered through this test will be converted into grade as per table 12.7.3.

Table 12.7.3 Skillrack/MATLAB Marks to grades

Marks range	Letter Grade	Grade Points
91- 100	O	10
81-90	A+	9
71-80	A	8
61-70	B+	7
56-60	B	6
50-55	C	5
<50	U	0

For the credit transfer of the elective courses, the above grades shall be converted as per the following example:

- The credit earned in the successfully completed Skillrack/MATLAB courses shall be recorded in the grade sheet.
- If a student has not successfully completed the Skillrack/MATLAB courses, then the same shall not be recorded in the grade sheet.
- If a student earns 1 credit through Skillrack/MATLAB course or NPTEL (4 weeks) and 2 more credits through NPTEL (8 weeks) then he/she can drop one professional elective or one open elective and the total grade point of the dropped course can be evaluated as per the following example.

Course 1 (Skillrack/MATLAB/NPTEL-4 weeks)
– C grade – 5 points

Course 2 (NPTEL – 8weeks) – O grade – 10 points

Then, the grade point of the dropped course for the calculation of Grade point is obtained as: $(1 \times 5 + 2 \times 10) / 3 = 8.33$.

- If a student has successfully completed two 8 week courses only, then he/she can drop only one professional elective/open elective. The computation of Grade point for one PE/OE course dropped in lieu of those two NPTEL courses is as follows.

Grade point = $(2 \text{ credits} * \text{higher grade point obtained} + 1 \text{ credit} * \text{lower grade point obtained}) / 3$ credits.

For example, for two courses of two credit each, if the grades obtained are,

Course 1 – C grade – 5 points; Course 2 – O grade – 10 points

Then, the grade point of the dropped course for the calculation of CGPA is obtained as: $(1 \times 5 + 2 \times 10) / 3 = 8.33$.

15. AWARD OF LETTER GRADES

15.1 The performance of a student will be reported using letter grades, each carrying certain points as detailed in the table 15.1.

Letter Grade	Grade Points	Marks range
O (Outstanding)	10	91- 100
A+(Excellent)	9	81-90
A (Very Good)	8	71-80
B+ (Good)	7	61-70

W (Withdrawal)	-	-
SA (Shortage of Attendance)	-	

Note:

Fixed grading is applicable for all laboratory courses and for the theory courses in which students enrollment is less than or equal to 30. Relative Grading is applicable for all theory courses in which student enrollment is greater than 30.

15. AWARD OF LETTER GRADES

15.1 The performance of a student will be reported using letter grades, each carrying certain points as detailed in the table 15.1.

Relative grading shall be followed for all theory courses if the number of students who have passed the course is greater than 30. In all the courses, if the number of students who have passed the course is less than or equal to 30 then absolute grading shall be followed. For the Project Work/internship/Mini project and Laboratory Courses absolute grading procedure shall be followed irrespective of the number of students who have passed the course.

15.4 If a student successfully completes all the requirements of the programme and also meets the requirements of B.E. / B. Tech. (Hons) or B.E. / B. Tech. Minor but desires not to opt for the additional qualification, then he/she has to submit a declaration with regard to the same 30 days before the completion of semester VIII.
