About the Institution:

K.L.N.College of Engineering is the first self financing co-educational Engineering College in Madurai started in the year 1994. This college is sponsored by a committee of eminent industrialists and academicians led by a great philanthropist Shri.K.L.N.Krishnan. This college has been approved by All India Council for Technical Education, New Delhi and affiliated to Anna University. The college conducts 7 U.G courses and 5 P.G courses in engineering and computer applications. This college is an ISO 9001:2008 certified institution. This college campus situated in a quite environment about 11 Km from Madurai city.

About the Department:

The Department of Electrical and Electronics Engineering is accredited by NBA and it was started in the year 1994. It runs a Post Graduate course in Power System Engineering besides the Under Graduate Program in Electrical and Electronics Engineering. The Department has well experienced, dedicated faculty members with different field of specialization. The Department is well equipped with the latest equipments in Electrical Machines Lab, Power Electronics Lab, Control and Instrumentation Lab and has excellent computing facilities with the latest software like ETAP, PSCAD, Power World Simulator, MATLAB in power system simulation lab and IEEE Library.

About Madurai:

Madurai is one of the oldest cities in India and has a very rich cultural heritage. It is known as “Temple City” and “Athens of the East” and is famous for the world renowned “Meenakshi Temple”.

About the Workshop:

In a scenario where India tries to accelerate its development process and cope with increasing energy demands, conservation and energy efficiency measures are to play a central role in our energy policy. A national movement for energy conservation can significantly reduce the need for fresh investment in energy supply systems in coming years. It is imperative that all-out efforts are made to realize this potential.

Scope and Objectives:

This programme will focus on issues of energy efficiency improvement in organized sectors such as energy intensive industries and commercial sector through establishment of energy management system, implementation of energy audits, establishments of specific energy consumption norms.
