About the Institute

K.L.N. College of Engineering has been the first self-financing co-educational Engineering College started in Madurai in 1994. The College has been affiliated to Anna University and approved by All India Council for Technical Education (AICTE). The College is located in the south eastern outskirts of Madurai and is 11Km away from Madurai city. The college runs 7 undergraduate engineering programs and 6 Master Programs including M.E. Communication Systems.

Department of ECE

The Department of ECE was started in 1994. It has an intake of 120 students. The Department has adequate infrastructure with spacious classrooms, conference halls and well developed eight laboratories having the advanced designing tools like MATLAB, Orcad P-Spice, Xilinx, IE3D and modernized equipments like spectrum analyzer, microwave power meters, GPS kit. The core members of the faculty have rich academic experience and wide industrial and R&D exposure and are well suited for minimizing the gap between academy and industry. The Department initiates the U.G., P.G. & research projects in Embedded Systems through the centre of Embedded Systems which is based on the collaboration of the institution & Embedded industry. The Department library has over 1500 books and magazines and journals. AICTE, New Delhi has sanctioned fund as under MODROB scheme for modernizing Microwave Lab of this department.

Madurai:

Madurai is a place of great historical and cultural importance. It was the capital of Pandya Kingdom. Madurai is famous for its temples with its rich architecture and sculptural works such as Meenakshi Temple and it is also famous for textiles, handlooms and silk sarees. Madurai is the second largest city in Tamil Nadu with many educational institutions and world-class hospitals. It is well connected by air, rail and road.

Objectives of the Workshop

MATLAB has played an increasingly important role in a wide range of disciplines in science and technology. Research and development in MATLAB design are thriving advancement in High-tech areas all over the world.

- Develop a thorough understanding of basics of MATLAB
- Enhance the ability to apply the mathematical model into MATLAB

Workshop Contents

- Building Matrix
- Control flow
- Polynomials
- Solving ODE
- Transforms

Who can Register?

The program is open for all staffs (Science and Humanities, Engineering and Technology) and UG/PG students. Application can be downloaded from the website www.klnce.edu
